

MATERIALS SCIENCE AND ENGINEERING COURSE OFFERINGS BY TERM

To assist you in long term schedule planning, a *tentative* term-by-term listing of course offerings is provided below. This schedule will be especially helpful to students who decide to enroll in the co-op program.

Important Note: due to changes in the Materials Science and Engineering curriculum, and in order to accommodate students following both the old and the new curricula, this schedule of course offerings is being phased in over a three-year period and will be fully implemented beginning in the Fall of 2009. The interim transition schedules are available in the Mechanical Engineering and Materials Science Department Undergraduate Office, 648 Benedum Hall.
